MISCELLANEOUS

ROYAL BAKING POWDER
Absolutely Pure.

WHY YOU SHOULD USE SCOTT'S EMULSION
OF COD LIVER OIL WITH HYPOPHOSPHITES.

It is used and endorsed by Physicians because it is the best. It is Palatable as Milk. It is three times as efficacious as plain Cod Liver Oil. It is far superior to all other so-called Emulsions. It is a perfect Emulsion, does not separate or change. It is wonderful as a flesh producer.

It is the best remedy for Consumption, Scrofula, Bronchitis, Wasting Diseases, Chronic Cough and Colds.

Sold by all Druggists.

ARCADE SALOON.

H. E. DAVIS & CO., PROPRIETORS.

THIS SALOON HAS BEEN RECENTLY fitted up in the most modern style, and is presided over by Harry Davis, late of the Depot Hotel, whom everybody knows.

The Bar is Second to None
In the State, being always provided with the best of everything.

Give Mr. Davis a call and be convinced.

Pleasant Valley Coal.

J. H. BLACK HAS PURCHASED THE Business

Of the Pleasant Valley Coal Company for Reno, and is prepared to supply the demand in any quantity.

Big G has given universal satisfaction in the cure of Gonorrhea and Gleet. I prescribe it and feel safe in recommending it to all sufferers. A. J. STOVER, M.D., Dealer, Ill. PRICE, \$1.00. Sold by Druggists.

MINE CALAMITY.

High Water in Willamette River.

DOCK LABORERS TO STRIKE.

What Senator Farwell Says of Harrison.

Indian Trouble Feared—A Bomb Sensation in Washington.

Mine Explosion.

LONDON, Feb. 6.—An explosion occurred this morning in the colliery at Aberystwyth, Monmouthshire. Three hundred miners were imprisoned several hours. An opening was finally effected, and at noon 200 had been rescued. A number of those taken out were severely injured.

A rescuing party is still searching for those remaining in the mine, but it is feared that it will be impossible to rescue those of the miners who are still imprisoned.

LONDON, Feb. 6.—Forty bodies have been taken from the mine. There are fifty others yet imprisoned, but it is not known whether they are dead or alive.

The owners estimate that 120 persons lost their lives by the explosion.

Trouble Feared.

SAN FRANCISCO, Feb. 6.—A Chronicle's Santa Fe, N. M., special says: For two months past trouble has been brewing between the settlers in North-eastern New Mexico and Southwestern Colorado and the Navajo Indians. The trouble grows out of the killing of one of a band of roving Indians last December by a number of settlers on the San Juan river who thought their cattle had been stolen.

The Navajos recently held a three days' pow-wow, and they reached the conclusion that the man who killed the Navajo specified must be arrested and punished or they would take the law in their own hands.

The sub-agent says he has no doubt that if some action is not taken the loss of property and bloodshed may ensue.

A General Strike—More Home Rule.

LONDON, Feb. 6.—A committee of the Dock Laborers' Union is making arrangements for a general strike next Monday.

Alfred Thomas, a home rule member, will at the coming session move an amendment to the address in reply to the Queen's speech at the opening of Parliament, that the affairs of Wales ought to be administered by a special Department, presided over by a Minister acquainted with Welsh national affairs.

No Criminal Intent.

WOODLAND, Cal., Feb. 5.—The charge of embezzlement preferred against H. J. Palmer by Senator James G. Fair was dismissed to-day by Judge Ruggles, who said: "There seems to have been a great deal of money handled by Palmer, and he may have been indiscreet in making the entry in question, but I find no criminal intent and believe a conviction could not be had."

Effects of High Water.

TACOMA, Feb. 6.—The Willamette river is higher than for twenty years past. Many bridges have been threatened and great damage has been done in the entire valley.

A revenue cutter with northern mail from San Francisco was unable to cross the Columbia river bar. It came back to Tacoma and has taken the mail back to San Francisco.

Situation at Portland.

PORTLAND, Or., Feb. 6.—This morning the river is stationary at this point and it is thought there will be no further rise. Reports from Corvallis and Oregon City say it is falling one inch an hour there.

A Gas Victim.

SAN FRANCISCO, Feb. 5.—Wm. P. Parker, a real estate agent was found unconscious on a lounge in the back part of his office this morning, having been asphyxiated by gas. He died this afternoon without regaining consciousness.

A Brooklyn Blaze.

NEW YORK, Feb. 6.—A fire in the matting factory of Joseph Wild & Co. in Brooklyn, last night, did \$150,000 damage.

What Senator Farwell Says of Harrison.

By Associated Press.]

WASHINGTON, Feb. 4.—Senator Farwell was questioned as to the truth of the statement that the nomination of Clark as Collector of the port of Chicago was confirmed by the Senate in executive session Thursday. "Yes," replied the Senator, Mr. Clark has been confirmed. I was not in the Senate at the time, but I consented to it. I could not doubt have defeated his confirmation, but it would have availed nothing. It would have resulted in punishing a worthy citizen, that's all. The President's nomination of Clark," he continued "was a very astonishing and unusual proceeding, and in making it he wholly ignored the wishes of the Illinois delegation and acted in a very strange manner toward them. He did not even consult any one of them. Campbell was not only the choice of the entire delegation, but was undoubtedly the choice of the people, and I construe President Harrison's action in this matter, in his refusal to appoint Campbell, as a deliberate affront, and no doubt he intended it as such."

"How do you explain the President's action?" was asked.

"Why, I happened to be Chairman of the Illinois delegation at the last National Convention, and held the delegation solid for a number of ballots for Judge Gresham. I can see no other cause for his action. He seems to think the office belong to him personally, and not to the people. Mr. Lincoln thought otherwise. Mr. Campbell was chairman of our campaign committee and devoted months of his time and his whole local energies to the election of Harrison; Clark didn't do this, but then this is Harrison's way of rewarding political friends. I regret that he entertains such notions, for it results in the disruption of the party to which he and I belong. It seems to me," continued the Senator, "that it is the duty of those holding important official positions to try and carry out the will of the people, but in this matter Harrison has wholly ignored them, and far as I remember this is the first instance in which the wishes of an entire delegation in Congress from any State has been so entirely disregarded."

Took It All Back.

By Associated Press.]

NEBRASKA CITY, Neb., Feb. 5.—Ed. Platner, an old settler and well known, who died a few days ago, was during life an avowed infidel and admirer of Ingersoll. He had a well stocked library of books on this subject, was a well read man and never so happy as when arguing against the teachings of the Bible. On the day of his death, when he realized that his dissolution was near at hand, he sent for a Christian neighbor, whom he instructed to burn all his books on the subject of infidelity, and a bonfire was accordingly made of them. Mr. Platner then called his family about him and warned them from the way in which he had led them, saying he at last realized the great mistake he had made during his life.

Blaine's Foreign Policy.

By Cable and Associated Press.]

BERLIN, Feb. 6.—The confirmation of the Samoan treaty by the United States Senate affords general satisfaction here. Herbert Bismarck called upon Minister Phelps before office hours this morning and congratulations were exchanged. Mrs. Phelps gave an afternoon tea to-day. The rooms were thronged with American ladies and gentlemen, who expressed much gratification at the results of American diplomacy.

To Be Analyzed.

By Associated Press.]

WASHINGTON, Feb. 6.—The rumor current yesterday that a dynamite bomb was found in the Capitol proves to have but slight foundation. The Chief of the Capitol Police examined the alleged bomb and concluded the box was a railroad torpedo, but to settle the matter he has sent it to the district chemist for analysis.

Oregon Road in a Bad Condition.

By Associated Press.]

SACRAMENTO, Feb. 5.—A large number of men were sent to Dunsmuir tonight to join those already there in the work of clearing the California and Oregon track. Much of the road will have to be literally rebuilt. It will require a long time to dig out the portion now covered by earth.

Reconsidered and Passed.

By Associated Press.]

ALBANY, N. Y., Feb. 6.—The vote by which the World's Fair bill was lost yesterday was to-day, by a unanimous vote, reconsidered in the Senate and passed by a vote of 18 to 5. The bill was then sent to the Assembly, which refused to concur in the Senate amendment.

Assistant Bishop of California.

Special to the GAZETTE.]

SAN FRANCISCO, Feb. 6.—The Episcopal Convention to-day elected Rev. Dr. W. F. Nichols of Philadelphia Assistant Bishop of the Diocese of California.

CONGRESSIONAL.

A Sale of Trotting Horses.

NEGROES WANT TO EMIGRATE.

Supposition as to the Cause of the Tracy Fire.

Montana Democratic Senators Leave the State.

Congressional Affairs.

By Associated Press.]

WASHINGTON, Feb. 6.—The House Committee on the ballot-box forgery this morning called Senator John Sherman as the first witness. He was shown exhibit "A," and he declared that he never signed it. He saw it first when it was sent to him in November by Halstead. The signature was a copy of his rubber franking stamp, and not an imitation of his signature. Witness never heard or knew of a ballot-box contract, and never heard of the Campbell bill before Governor Foraker's Music Hall speech.

Murat Halstead, editor of the Cincinnati Commercial Gazette, testified that when he published Governor Campbell's signature, he cut off from the photographic copy of the paper the signatures below Campbell's. Witness told how he got hold of the paper, of his talks with Governor Foraker and others about it, and how it was thought advisable to use it in the campaign against Campbell.

Before the Senate Committee on Commerce, Reagan made an argument in favor of the Senate bill to spend \$60,000,000 on making a deep-water harbor at Galveston, and a sub-committee was appointed to draft a bill and report to the full committee.

The President to-day sent to the Senate the nomination of Paris Kilbourne, to be Surveyor of Customs at San Francisco; George W. Irwin to be United States Marshal for the District of Montana; and Solomon D. Bosworth for Postmaster of Grass Valley, California.

After some miscellaneous business the Senate took up the bill to provide a temporary Government for Oklahoma, and the Clerk continued the reading of the bill.

At 2 o'clock the Oklahoma bill went over and Blair took the floor to conclude his speech on his educational bill.

HOUSE.

The Democrats this morning carried out their policy of a silent protest against the ruling of the Speaker by declining to vote upon the question of approving the journal. The instrument was, however, approved—yeas 153, nays 0—a constitutional quorum being counted by the Speaker.

The Committee on Rules reported a new code, which was ordered printed and recommitted.

The Senate Direct Tax bill was referred to the Judiciary Committee. The House Special Committee on Invalid pensions this afternoon reported back the Senate "disability" pension bill with a substitute, making the rate for total disability \$72 per month and partial, \$50 per month. The bill as amended was passed. The bill for the relief of the survivors of the Samoan disaster was also passed, as well as the bill creating two new land districts in Montana.

Telegraphic Interruption.

By Associated Press.]

CHICAGO, Feb. 6.—Advices via the Western Union from the far Northwest indicate little improvement in the telegraphic situation. After the wires had been broken down by snow-slides on the regular route to Portland, the company managed to get a wire through to Tacoma over the Cascade division of the Northern Pacific, and thence to Portland. This held up only a short time, and the reports this morning are to the effect that a heavy windstorm on the Cascade division blew down many pine trees, and breaking the wire. The flood in the Willamette river at Portland carried away the cable laid across it, making the break in the connection more serious.

The Montana Situation.

By Associated Press.]

HELENA, Feb. 6.—After the adjournment of the Senate yesterday the eight Democratic Senators, increased at the ruling of Lieutenant-Governor Richards in counting them present, took trains in different directions. They said they were going beyond the State line to get beyond the reach of the Sergeant-at-Arms. Their continued absence will block all legislation.

National Holiday—Many Deaths.

By Associated Press.]

CITY OF MEXICO, Feb. 6.—Yesterday being the anniversary of the adoption of the Constitution of the Republic, it was observed as a national holiday.

The influenza is increasing here, causing so many deaths that a sufficient number of hearses are not available to carry the bodies of the dead to the cemetery.

President Diaz and the Ministers of his Cabinet are contributing liberally from their private purses for the relief of the suffering people in straitened circumstances.

Sale of Trotting Horses.

By Associated Press.]

NEW YORK, Feb. 6.—Among trotting horse owners and breeders the sale of the entire stud owned by L. J. Ross of Los Angeles, Cal., is considered one of the most important of the year. It will be held in this city on March 5th, and includes 29 colts and fillies, from one to three years old; the Sultan stallion Alcazar, and all the brood mares on his farm, except the famous matron of Minnehaha.

"Want to Emigrate."

By Associated Press.]

BESSEMER, Ala., Feb. 6.—For several days the negroes have been holding meetings discussing the matter of Butler's bill. They have sent to Congress results of their deliberations, which favors the passage of the bill and the emigration of the colored people to the Congo Free State of Africa.

The Tracy Fire.

By Associated Press.]

WASHINGTON, Feb. 6.—Fire Marshal Drew reports that in his opinion Secretary Tracy's house was fired by the explosion of a lamp.

A Plying Cardinal.

By Cable and Associated Press.]

ROME, Feb. 6.—Cardinal Pecci, a brother of the Pope, is suffering from pneumonia, and is dying.

Did Not Open.

By Associated Press.]

NEW YORK, Feb. 6.—The Lenox Hill Bank did not open this morning. No new developments.

Still Unbroken.

By Associated Press.]

DES MOINES, Ia., Feb. 6.—The deadlock in the House on the speakership remains unbroken.

Bar silver, 90%.

Unruly Passengers.

The Captain of the ferry-boat Ellen, at Vallejo Cal., attempted to keep the crowd of workmen returning from the Navy Yard from rushing to the bow of the boat before the vessel could land, and locked the doors of the cabin. The men then broke the glass in the doors, when the Captain, with an iron bar, in his anger made a blow at the men and hit Thomas Kavanaugh under the left eye. Considerable excitement followed.

NEW TO-DAY.

COMING TO RENO!

DR. LIEBIG & CO.

WILL BE AT PALACE HOTEL, RENO,

Monday, March 10, 1890

ONE DAY ONLY!

CANNOT POSSIBLY REMAIN LONGER on account of the urgent demands for the services of the greatest living specialists from all cities on the coast.

5 O'CLOCK EDITION.

LEGITIMATE Building and Loan Associations probably stand next to, if not before, the most closely managed Mutual Life Insurance Associations. To be legitimate, in the light of the claimed report of Bank Examiner Kenyon of Minnesota, these Associations must be local, and controlled wholly by local Boards, and represent local capital.

According to reports the Minnesota organization has duped stockholders all over the country to the tune of over \$382,000. We know nothing of their incorporation, nor of the liability of those who have taken stock, but we are advised that the California authorities, by reason of the adverse report made against the concern, practically drove it from that State.

The agents worked Western Nevada hard, and were their representations taken as a true statement of results, those subscribing to the American Building and Loan Association of Minneapolis only had to pay their dues and abide their time and they would become millionaires. If the Association is what the Minneapolis Tribune represents it to be, it is both a rotten and law-breaking concern.

Let this be as it may, it should not discredit our home organization, which is represented by local men of standing, who are willing to act in the interest of all, and especially those who have limited earnings and are willing to put aside a portion thereof weekly or monthly for the purpose of providing for the future.

It was the glaring misrepresentations made by the agents of the Minneapolis concern that induced a few of our citizens to organize a home association, which should receive recognition.

The young men, especially, of Reno should feel it as a duty that they owe themselves to put all their surplus earnings in the home association. If they will do this, in a few years they will be astonished at the practical foundation they will have laid for future business success, and of which they can realize a fortune. Do not let this foreign billy, if such it should prove to be, cast any adverse reflection on the home institution and its patronage.

JAPAN hoisted her new flag for the first time on the Emperor's birthday. Though handsome they are not so artistic as the old Japanese productions, and illustrate the decadence of popular taste. The Emperor's flag has a plain red ground, with a gold chrysanthemum in the center; the Empress uses the same device, but her flag is swallow-tailed, while the Heir Apparent's banner is distinguished by a narrow white border. The Imperial Princes and Princesses also use a gold chrysanthemum, but on a white ground with broad red border. The naval ensign has a red ball on a ground of red and white rays, the naval flag displays a red ball on white ground, and the pennant is white, with a red star.

At the last election in Baltimore there were registered 22,500 names that were stricken from the books as fraudulent. No wonder that a Ballot Reform League has been formed in that city, and that even the Democrats have given it their countenance. If, says the Record-Union, Governor Hill is to get into the swim in this matter of ballot reform, he will have to take the plunge very soon, for presently only that forlorn trio, Foraker, Hill and Butler, will be left as the relics of a system under which that was possible which happened in Baltimore last year—when there were more votes cast in some of the districts than there were voters resident in the precincts.

The proposition to remove Geronimo's band to Indian Territory has called out a remonstrance from residents of Arizona and New Mexico. These people have more at stake than General Crook in the disposition of these Indians, and their welfare is of more consequence than that of the Apache prisoners. Furthermore, the latter are suffering from nothing more than homesickness, doubtless exaggerated by their inability to get on the war-trail again.

INSPECTOR BONFIELD of Chicago, who is charged by the Salt Lake Tribune with being employed by the Mormons to do some very dirty work for them in the city election soon to take place, is referred to by the above-mentioned journal in the following language: "Some men live too long. Inspector Bonfield must feel the force of that fact now-a-days. When he led the police of Chicago into the mouth of that hell which the Anarchists had prepared—led them, be it said, as grandly as ever soldier stormed the 'imminent deadly breach' of a stronghold's wall—had he nobly died with the others there, his fame would now be secure. It would have been enrolled upon that sacred list of those who died in the performance of a noble duty, and the record that would have gone down to posterity for him would have been that of a public servant who in a mighty crisis proved that he was equal to the trust that had been imposed upon him.

From that think of him now as the paid spy of an organization hostile in every heart-throb to free government; employed for the purpose of defeating a fair election; the accessory, before or after the fact, of the crime of bringing contempt upon the courts and the laws of his country; as one reaping a profit through the employment of rascals, thugs, thieves and bogus affidavits makers, out of the depths to try to betray honorable names, with no purpose behind it all except to make money by strengthening a power which holds itself higher than the laws, and which, to carry its points in the name of the Lord, reduces perjury to an exact science and does not shrink at assassination.

An Eastern exchange says the firmness, coolness and grit of Speaker Reed are more than a match for the bluster of the whole Democratic minority in Congress. The theory that a Congressman can be both present and absent at the same time has been pretty effectually set down upon by the Speaker's 240 pounds avoirdupois.

AN ECCENTRIC DOCTOR.

The Quaint Ways of a Successful New England Medical Man.

Dr. Charles Wild practiced medicine in Brookline, Mass., in the days when people insisted upon taking large doses of calomel, rhubarb, jalap, ipecac, antimony and countless other drugs, and on being blistered and bled. The doctor was equal to the occasion, and gave his patients their money's worth of physic and service—when they could secure his attendance.

For the doctor was a difficult man to find, and when found, to impress with the idea that he was actually needed. Unless the case was represented as a matter of life and death, he was apt to delay his visit until the patient had recovered or died. Those who hunted for him, knowing his habits of going from one patient to another, without going home for a day or a night, used to go through the streets looking for "old Sal," his sorrel mare, and his familiar old buggy, standing before some house door.

But such was the public confidence in him, that in ordinary illnesses people would wait his tardy visit rather than seek for another physician. The author of "Sketches of Brookline" describes him as entering a house in the breezy way, stamping off the snow or mud, throwing off his overcoat and letting down his black leather pouch, with noise enough for three men. His salutation, uttered in a deep, gruff voice, was likely to be, if the patient was an acquaintance: "Well, well! what kind of a kick-up have you got now?"

He gave nicknames to the children, and would ask: "How's Nicodemus today?" or: "Well, is Ichabod's tooth ready for the lance this morning?" A friend's child, whose name was Florence, he called "Rome," "Milan," or by several other Italian cities.

A member of his family, while making out the doctor's bill, was perplexed by a charge upon the books of a visit to "Don Sebastian." On inquiry it proved to be the nickname of a child of the Cabot family.

When the doctor had studied the case and given the patient his dose of medicine, he would, if there was cause for anxiety, settle himself for a social visit of two or three hours, during which he would tell stories, and acted them out to the amusement of the children, who were very fond of him. If the case was serious he was grave and silent, watching flies, if there were any to catch; or walked the room in deep thought.

The doctor was more than a physician, he was the counselor of his patients, who consulted him upon all sorts of matters, from choosing a wife or a husband to building a hen-coop. His opinion was an authority that few disputed, for his good sense was seldom at fault. His quaint humor, on leaving a sick-room, would often express itself in some such salutation as this: "Now if you can't sleep well and don't know what to do, you can amuse yourself with taking an emetic." Youth's Companion.

STANFORD UNIVERSITY.

Mrs. Leland Stanford's Plans in Connection with That Institution.

Mrs. Leland Stanford, in an interview in the San Francisco Chronicle, gives many facts hitherto unprinted in regard to plans for the new university at Palo Alto. She says the same attention will be given to girls as to boys, and it is her purpose to have an art training-school, like the Cooper Institute, where girls who have a taste for designing may secure instruction that will enable them to earn a good living. If they then wish to study higher art they will have means to support themselves. The chief aim will be to ground the students in elementary studies, and then to give them some practical training by which they may easily support themselves. If then they desire higher training it will be freely given, but the whole spirit of the institution will be against merely ornamental education. To quote Mrs. Stanford's words on this point:

"I think it absolutely cruel to give a young man or woman who must depend upon their own exertions for a livelihood a classical education pure and simple. There is scarcely a week that Mr. Stanford is not asked to give employment to graduates of Yale and Harvard. He has six of them as car-conductors on the Market street line now. Of course it is no disgrace to them and they will not remain long, but it is pitiful to witness the helpless state of wrongly educated young people."

When asked whether any plans had been devised for the association of the sexes she said: "Yes, indeed. Cottages will be built which will accommodate about twenty students each, and these will be in charge of a teacher, where the personal habits, manners and amusements of the students may be under supervision. Every care will be taken to make these cottages homes in the best sense of the word, a place where no creed is taught, but where the day begins and ends with prayer, and where each individual is brought under refined discipline. The cottages intended for boys will be about a mile distant from those occupied by the girls, but the evenings may be passed together in music or social games in the presence of and with the consent of the teachers."

"Is it true you intend to give paintings and curios in your house to the university museum?"

"Quite true, and I am determined there shall be copies of all the old masters added to the collection of paintings. Down in my ball-room an exact reproduction of 'The Lord's Supper,' painted by Raphael, which was found during the wars of Napoleon, and which hangs in the cathedral near Milan. King Humbert allowed me to have it copied. Through Mr. Pendleton, our recent Minister to Germany, the young Kaiser has given permission to secure a copy of the famous 'Sistine Madonna' in Dresden, reserving only the right to name the artist. I have just given an order to have the work begun."

It is expected that the university will be open next fall. The colleges will be provided with ample lecture-rooms, and the trustees will be required to offer a high salary for instructors. The higher courses will be free to post-graduates of all colleges and universities, and to such other deserving persons as the trustees may elect to admit.

GREAT EMERGENCIES.

The Surest Way of Being Ready for Them is to Meet Small Ones Calmly.

The knowledge of what to do in case of sudden calamity does not generally come on the spur of the moment or by inspiration—it is already in store and waiting a summons into action. Those who keep their eyes and ears open very readily learn what is best to be done in case of fire, or burning, or sunstroke, or a broken limb, or a fainting fit, or a severe cut, or sudden and severe illness, until professional assistance can be brought to their aid. A commonplace book in which modes of treatment in various maladies and accidents are noted down is very useful in helping one to remember what to do.

The surest way of being ready for the great emergencies of life is to meet all its small ones not only with calmness, but with a masterful spirit, resolved to turn defeat and disaster, however trifling, to good account, by learning from them the secret of victory. "To be weak is miserable doing or suffering," and they who cultivate weakness, by refusing to use even the smallest means of overcoming obstacles in their way, cultivate misery. These unhappy souls, when called upon to confront sudden and terrible emergencies, cringe and faint and know not which way to turn, while those who with fearless courage and indomitable will fight the lesser battles of life, are strengthened thereby for those mightier conflicts that call out all their skill and resource, and make them saviors and benefactors to their associates in trouble.

Young mothers envy the unruffled composure observed in elderly women who have reared large families of children, and who have learned that broken bones will heal, a horse will get well, that there are ways of managing and preventing disease, and that it is always best to keep possession of one's wits. "All things come alike to all," and as Milton says of the affliction which at once darkened and brightened his life: "It is not so wretched to be blind as it is not to be capable of enduring blindness. But why should I not endure a misfortune which it behooves every one to be prepared to endure if it should happen, which may in the common course of things happen to every man, and which has been known to happen to the most distinguished and virtuous persons in history.—N. Y. Christian Advocate.

Tricks in Parlor Electricity.

A very simple apparatus for obtaining an electric spark is made by a German physicist, says the Arkansas Traveler. Round the center of a common lamp-chimney is pasted a strip of tin foil, and another strip pasted from one end of the chimney to within a quarter of an inch of this ring. Then a piece of silk is wrapped around a brush, and the interior of the chimney is rubbed briskly. In the dark a bright electric spark may be seen to pass from one piece of tin foil to the other each time the brush is withdrawn from the chimney. Many other experiments can be tried with this apparatus.

MISCELLANEOUS.

Pure Blood

Is absolutely necessary in order to have perfect health. Hood's Sarsaparilla is the great blood purifier, quickly conquering scrofula, salt rheum, and all other insidious enemies which attack the blood and undermine the health. It also builds up the whole system, cures dyspepsia and sick headache, and overcomes that tired feeling.

Scrofula Sores. "My adopted boy, aged 14 years, suffered terribly from scrofula sores on his leg, which spread till they at one time formed one great sore from the calf of his leg up to his thigh, partially covered with scab, and discharging matter continually. The muscles became contracted so that his leg was drawn up and he could hardly walk. We tried everything we could hear of, without success, until we began giving him Hood's Sarsaparilla. In just a month, after he had taken two-thirds of a bottle, the sores entirely healed, his leg is perfectly straight, and he

Can Walk as Well as Ever. Hood's Sarsaparilla is the best medicine I ever saw for scrofulous humor. It has done its work more than satisfactorily." WILLIAM SANDERS, Rockdale, Millam County, Texas.

Hood's Sarsaparilla Sold by druggists. \$1; six for \$5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

100 Doses One Dollar

VALUABLE PRESENT.

Every Old as Well as New Subscriber Gets One.

The article the GAZETTE is giving away is no cheap or common place affair, it is something every family ought to have. It is a Medical book for home use.

A book that is valuable, and choice in its language.

A book of 480 pages.

A book which you do not have to keep under lock and key.

A well printed book.

A well bound book.

50,000 copies have sold in the last six months.

It is a \$3 book which is given away.

OUR PURPOSE—We are making this new departure for two reasons:

First. We wish in this way to express to our Old Subscribers our appreciation of their patronage.

Second. We hope to induce a large number of New Subscribers to take our paper.

OUR PLAN—We shall give a copy of this three dollar book to each one of our subscribers this year, old as well as new, as follows:

A new subscriber who sends for the WEEKLY GAZETTE and STOCKMAN for one year at \$2.00 in advance, we will give a copy of this \$3.00 book.

To any old subscriber who will renew his or her subscription for one year, at \$2.00 in advance, and get us one new subscriber at \$2.00, we will give a copy of the book.

In this case, the new subscriber will also get a copy of the book with his year's subscription.

To all delinquent subscribers who will pay arrearages, and renew for one year, at \$2.00 in advance, and give us one new subscriber, at \$2.00, we will give a copy of this \$3.00 book.

The new subscribers will also get a book.

Where the book is sent by mail, 20 cents must accompany the order for postage.

There are three chapters in the "Family Physician" which are worthy of special mention, namely, those on "Diseases of Women," "Diseases of Infants" and "Care of the sick."

The first of these is a model of its kind. It is chaste in language, contains no disgusting pictures for children to happen on and be over-curious about, and taken altogether is the most practical, sensible and straight-forward treatise upon this delicate subject that has ever been printed.

This chapter alone is worth many times the cost of the book to every mother, even if it had to be purchased at its regular price.

The other chapters referred to are equally well written and valuable. See "Our Plan" on 4th page.

BETTER THAN GOLD.

RESTORED HER HEALTH.

For 25 years I suffered from boils, erysipelas and other blood affections, taking during that time great quantities of different medicines without giving me any perceptible relief. Friends induced me to try S. S. S. It improved me from the start, and after taking several bottles, restored my health as far as I could hope for as my age, which is now seventy-two years.

OUR COLUMN.

These Are the Books

We Are Giving Away. This book contains 480 pages; is eight and one-half inches long, six inches wide and two inches thick. It is printed on extra heavy paper and is handsomely bound with embossed cover and gilt-lettered back. It is different from all other works ever published. First—it teaches those who have it how to tell what the matter is when a person gets sick. All similar books tell what to do if you know what the disease is. This book tells you HOW TO DETECT THE DISEASE, and then what to do for it.

No other Book Published does this.

Second—When a person is really attacked by a dangerous disease, it enables you to know the fact, and in such cases its advice is: "Send for a competent physician at once." But in all ordinary cases, such as can be easily cured, it gives full directions for treatment.

Third—it is not confined to the practice used by any one class of physicians; but it gives, separately, and for each disease, the methods used by each of the different schools of medicine, and in ALL CASES the PRESCRIPTIONS ARE MADE BY THE MOST EMINENT MEN in their respective modes of practice. This makes the work specially suited to the needs of every family, no matter what medical school they prefer.

No other Book Published Does this.

There are three chapters in the "Family Physician" which are worthy of special mention, namely, those on "Diseases of Women," "Diseases of Infants" and "Care of the sick."

The first of these is a model of its kind. It is chaste in language, contains no disgusting pictures for children to happen on and be over-curious about, and taken altogether is the most practical, sensible and straight-forward treatise upon this delicate subject that has ever been printed.

This chapter alone is worth many times the cost of the book to every mother, even if it had to be purchased at its regular price.

The other chapters referred to are equally well written and valuable. See "Our Plan" on 4th page.

TESTIMONIALS:

Having examined the advance sheets of the work entitled "Our Family Physician," I can say that I find it accurate in its descriptions of diseases and reliable in its therapeutic department.

H. F. COOK, M. D., Professor of Theory and Practice, Hahnemann Medical College.

I hereby certify that I have examined a work entitled "Our Family Physician" and find it to be correct in its description, and in my opinion, worthy of the confidence of the public. H. S. HANN, M. D.

I have examined the advance sheets of "Our Family Physician." It gives me pleasure to revise this work as correct in its mode of treatment of disease, and it deserves wide circulation.

J. F. COOK, M. D., Professor in Burnett's Medical College, Chicago.

After examining the publication "Our Family Physician" I can fully endorse the opinions expressed by its authors, the above gentlemen. R. A. GUNN, M. D., Professor of the Burnett Medical College.

The book contains a valuable chapter on "Diseases of Women," which will aid wonderfully in diagnosing diseases, and the proper remedy is given for all the most common ailments, Eclectic, hydropathic and Heretical treatments.

We have a number of the books on hand, and we invite inspection.

It is customary with newspapers to give premiums to new subscribers only; but the publishers of the WEEKLY GAZETTE intend to do as well, at least, by their old subscribers—as they have stood by the paper in years past, and paid their money for it "right straight along."

We propose to show our appreciation of these friends in a substantial manner, and as the premium to be offered is expensive, and as an express object in offering it is to increase our list of subscribers, we will ask every old subscriber who receives the valuable premium, to constitute himself a missionary, and send it to a new subscriber. So we, and bring us one new name and get a book which will be of incalculable value to you.

The new subscriber also gets a book.

If the book is to be sent out of this office, 20 cents must accompany order to pay postage.

JOTTINGS.

The best goods and best treatment at E. C. Leadbetter's. His goods are fresh.

His years of experience as a caterer enables C. Lemery of the Arcade to anticipate just what will best please his patrons.

If you want to see something nice in the line of the latest in valentines, take a peep into C. A. Thurston's show window.

C. J. Brooks carries a fine assortment of the most choice and popular novels, which he will sell you at a low price.

The Riverside Hotel is where you will never fail to find a nice room, a good bed and a fine meal as you ever sat down to in the State.

J. N. Wallace's increasing grocery trade shows that people are satisfied with his goods and prices. Give him a call and you will be sure to buy.

Every day in the week J. J. Becker sells out a hot free lunch that is equal to an ordinary meal, and his Bobs and Sacramento beer cannot be excelled.

It is generally conceded that no better beer was ever offered in this market than George Becker's Pacific brew. He also carries a full line of the best liquors and wines.

USEFUL INFORMATION.

Tilbury Fox, M. D., the eminent medical writer, in his work "Skin Diseases," thus accounts for the pimples so common to the face and neck. Eating too rich or too greasy food, or too hearty eating while the excretory organs are sluggish, causes in most people indigestion or a dyspeptic condition, which causes the blood to move sluggishly, and clogs the pores. The result is, that the exuding secretions block in the pores, which inflame, cause distinct inflammation being a pimple. Dr. Fox therefore does not prescribe "blood purifiers" so called, but a "dyspepsia cure" to be taken, to use his own words "to get the digestive system back to normal." The old idea was that face eruptions were caused by a "humor in the blood," for which they treated the blood, giving the mineral, potash. Joy's Vegetable Sarsaparilla follows the modern ideas of Dr. Fox, and aims with gentle vegetable alternatives at the stomach and digestive organs. The reason is apparent why it cures dyspepsia and indigestion, and the pimples and skin eruptions which result therefrom and why sarsaparilla that use minerals fail.

CATARH.

Catarh, Deafness—Hay Fever A New Home Treatment.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result of this discovery is that a simple remedy has been formulated whereby catarh, catarrh deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks.

N.B.—This treatment is not a snuff or an ointment; both have been discarded by reputable physicians as injurious. A pamphlet explaining this new treatment is sent on receipt of three cents in stamps to pay postage. A. H. Dixon & Son, 317 and 339 W. King Street, Toronto, Canada.—Christian Advocate.

Sufferers from Catarrh troubles should carefully read the above.

Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters praise the same song of praise. A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the liver and kidneys, will remove pimples, boils, salt rheum and other affections caused by impure blood. Will drive Malaria from the system and prevent as well as cure all Malarial fevers. For cure of Headache, Constipation and Indigestion try Electric Bitters. Entire satisfaction guaranteed or money refunded. Price, 50 cents, and \$1 per bottle at Finner's drug store.

Is Consumption Incurable? Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me an incurable consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made." Jesse Middlewart, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of lung trouble; was given up by doctors; am now a host of health." Try it. Sample bottles free at Finner's drug store.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 50 cents per box. For sale by Wm. Finner.

Advice to Mothers.

Mrs. Winkler's Soothing Syrup should always be used for children teething, as it soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

To Stockmen and Ranchers.

J. Westlake makes men's heavy French kip shoes full stock to order for \$5.00. Try a pair.

Repairing neatly and promptly done.

THE INDIAN SCHOOL.

A "Gazette" Reporter Visits Another of Carson's Public Institutions.

In company with Hon. T. B. Riekey a GAZETTE reporter visited yesterday the new Indian school building now in course of construction about three miles south of Carson. It is located on a tract of 320 acres of as fine land as can be found anywhere in Carson or Eagle valleys, and will be, when completed, an imposing structure and will make a fine Indian wickiup. It faces the east and fronts on the county road leading to Genoa. The building is a substantial frame structure with a 143-foot front by 115 in depth; the lower story has 12-foot ceilings and the upper 9-foot. It is provided with large, well-lighted recitation rooms, dormitories, dining room, kitchen, infirmary and rooms for the use of the employees, and is in every way suited for the education of "Lo, the poor Indian." The foundation was laid about two months ago and, notwithstanding the cold weather and frequent storms, it is all enclosed and the work of finishing has begun. C. H. Peters, Assistant Cashier of the Bullion and Exchange Bank, Carson, is the Government contractor and is doing the work of the building. The building is located on the north side of Clear Creek and gently slopes to the east, commanding a fine view of the head of Carson Valley, as well as the country about Carson and Empire. The soil is of the very finest quality and will grow anything within the range of Nevada products. Mr. Ross, the gentleman of whom the Government bought the property, has been raising wheat and oats for number of years, and it is said the land produced 40 bushels of wheat to the acre. It is well adapted to the cultivation of all kinds of vegetables and is provided with plenty of water, so if the young men do not graduate from the school knowing how to run a farm and cultivate the soil scientifically it will be because he is too indolent or does not have proper instruction. The appropriation made for the purchase of the farm and the construction of the building was \$24,000 and will take a year to complete. It is the intention to have a superintendent and a competent corps of instructors to enlighten the saddle-colored youths of the plains in all the lower branches and teach how to successfully till the soil. The Government has established similar schools in Colorado and other places on the coast.

Humboldt News.

The Winnemucca Silver State of the 5th inst. says: News was received here by telegraph last evening that the new bridge over Cottonwood creek in the town of Paradise was in danger of being swept away by high water.

A regular meeting of Company D, 1st Brigade, N. N. G., held last evening, the following officers were elected for the ensuing year: Ferd Ried, Captain; S. J. Anderson, First Lieutenant; W. D. Owens and T. R. Weber, Second Lieutenants; A. J. Morrison, Orderly Sergeant.

San Francisco Meat Market.

Now that the blockade is over, cattle are coming forward from all prominent shipping points, and fears of famine and high prices have vanished. Following are the rates for whole carcasses from slaughterers to dealers:

BEEF—First quality, 6 1/2¢; second quality, 5 1/2¢; third quality, 4 1/2¢. LAMB—Quotable at 7 1/2¢ for large and 6 1/2¢ for small.

MUTTON—Quotable at 7 1/2¢. LAMB—Quotable at 6 1/2¢ for large and 5 1/2¢ for small.

PORK—Live hogs, on foot, grain fed, medium, 9 1/2¢; heavy, 9 1/2¢; light, 4 1/2¢; dressed hogs, 7 1/2¢.

A Steam Sleigh.

A resident of Sissons, Cal., has invented a steam sleigh, operated by a six-horse power engine, that travels at a speed of thirty miles an hour over a depth of four feet of snow, and glides as gracefully as a swan over any path. The cost of the sleigh is only \$400—only about twice the sum charged for a first-class cutter.

Stock Shipments.

In addition to those reported yesterday, Matt Healey shipped five cars of beef cattle and George Humphrey shipped three cars to the San Francisco market.

To-day Grayson, Owen & Co. shipped fourteen cars to Oakland and Louis Dean shipped five cars to Stockton.

Not as Bad as Reported.

It has been learned that the GAZETTE's information, obtained through the Carson papers, relative to the destruction of Piper's Opera House was incorrect. A portion of the roof only was broken in by the snow, and the damage was quickly repaired.

PERSONAL.

Melville Wines, son of Mr. and Mrs. J. L. Wines, who, while on a visit to his parents, has been laid up by sickness, returned this morning to his place of business, at Butte City, Mont.

Boston Taxes.

The Boston Board of Aldermen has passed an order requesting the Mayor to petition the General Court to fix the tax rate of Boston at not exceeding \$1.50 on \$1,000, and to increase the debt limit from 2 to 2 1/2 per cent.

Personal Liberty in Kentucky.

The Mayor of Frankfort, Ky., vetoed an ordinance against cigarette-smoking on the ground that any other Colonel of Kentucky has as much right to smoke cigarettes as the Mayor has to smoke a pipe.

Jersey to the Front.

Camden, N. J., enjoys the distinction of being the first New Jersey city in which there has been a prosecution under the law to prevent the sale of cigarettes to children under sixteen years of age.

Auction Sale Postponed.

Owing to sickness in my family I will be obliged to postpone my auction sale until further notice, but will continue to sell at private sale at 50 per cent less than any store in the city.

C. W. BOOTH.

If you want artistic Job work you will call at the Gazette office.

BREVITIES.

Local and General Intelligence.

Counterfeit paper money is said to be in circulation in town.

The blockade on the Eureka and Palisade road is reported raised.

The body of an unrecognized man was discovered floating in the Carson river yesterday.

The Salvation Army at Petaluma, Cal., is proud of its victory, and now parades the streets unmolested.

Ebenezer Powers, an aged gentleman at Delano, Cal., was seriously wounded by a train Tuesday. He was dead.

Idaho people are jubilant over the decision of the United States Supreme Court sustaining the Idaho test-oath laws.

Heavy and incessant rains have fallen all over Southern Idaho for the past three days, and the rivers are booming.

The sound of the saw, plane and hammer are again heard on the Baptist Church and other uncompleted buildings.

Mrs. James, wife of the Methodist minister who figured in the Long Beach (Cal.) scandal last summer, has secured a divorce.

At Fresno, Cal., last Sunday, David Stuebman beat his wife because she wanted to go to church, and she is confined to her bed.

Mmanuel Montoya surprised his wife with another man at San Marcial, N. M., last Saturday, and split her head open with a hatchet.

George Francis Train thinks that by crossing this continent via the Canadian Pacific he can make the trip around the world in sixty days.

During the recent cold weather Horace Poor and a man by the name of Langworthy had their feet badly frosted while walking from Aurora to Hawthorne.

If you have catarrh, you are in danger, as the disease is liable to become chronic and affect your general health, or develop into consumption. Ho-d's Sarsaparilla cures catarrh by purifying and enriching the blood and building up the system. Give it a trial.

A Remarkable Water Flow.

Since Sunday last, at Santa Ana, in Orange county, Cal., the date of the last earthquake perceptible there, the well of Mr. Huntington, in Los Bolas district, which for years has never flowed to any considerable extent, has given forth large quantities of mud, stones and other materials, the eruptions being volcanic in character. The supply of water is now far in excess of the means provided at the surface for its care. So lately has been the flow during the last few days that it has been found necessary to ditch from the well to the river to carry the immense supply of water off the lands of the owner. The pipes are at all times in danger of bursting—the sudden blasts of air and foreign substance rendering it more or less dangerous to go near the opening.

Very Sorry.

Alexander Dumas the elder was apt to be boastful at times. Thus he once observed at an evening party: "I always keep a hundred louis d'or at the disposal of my friends." The very next morning a "good friend" called to borrow the hundred pieces of gold, but Dumas, who was not to be caught napping, answered with a smile: "Ah! my dear fellow, you don't quite take in my meaning. To be sure I always keep a hundred louis at my disposal for my friends, but if I were to lend you the amount it would no longer be at my disposal. Very sorry!"

Carson River Booming.

This morning's Enterprise says: The Carson river has been so very much swollen from the rapidly melting snow that the flats at Empire are submerged, and the lower portion of the town, bordering along the river, is flooded. Yesterday the flood had backed up so as to stop the Mexican and Morgan mills from working. The result was that the miners in the Crown Point and Belcher mines had to be knocked off again until the flood subsided.

Expensive Wine.

In the wine cellar under the Hotel de Ville, Bremen, there are twelve cases of holy wine, each case inscribed with the name of one of the Apostles. It was deposited in its present resting-place 265 years ago. One case of this wine consisting of five exohots of two hundred and four bottles, cost 500 rix dollars in 1824. Including the expense of keeping up the cellar, interest upon the original outlay, and upon interest, one of these exohots would today cost \$27,000 rix dollars, or about \$2,000,000 a bottle.

Want Civil Service.

A petition signed by prominent Massachusetts gentlemen, representing both parties, will be sent to Congress, urging a sufficient appropriation for the enforcement and extension of the Civil Service Reform law.

A Maine Gold Mine.

Stories of the finding of gold continue to come from Maine, the latest being that an Indian squaw picked up \$500 worth of the precious metal in the Franklin County Hill and sold it in Portland.

Eastern Suicides.

An epidemic of suicide continues to rage in New York City. The papers are filled with accounts of the most ghastly and horrifying self-murders, occasioned by want, financial ruin, drink and a dozen other causes.

Unusual Bluefish Catch.

The fishing-boats have been bringing great cargoes of bluefish into New York. Bluefish have not been caught in January off Sandy Hook for a great many years before this season.

Ladies' Guild.

A regular meeting of the Ladies' Guild will be held at the residence of Mrs. T. K. Stewart, Saturday, February 6th. A large attendance is earnestly requested. By order of President.

DR. RICHAU'S GOLDEN REMEDIES.

Dr. Richau's Golden Remedies. No mercury, no restriction of diet. Cures all skin diseases, eczema, psoriasis, etc. Correspondence answered promptly. Address: DR. D. B. RICHAU, 210, 2nd Varick street, New York.

The Best Remedy on Earth is the Great Sierra Kidney and Liver Cure.

A POPULAR DELUSION.

Relative to Removing Moles from the Eye.

Dr. J. B. Roberts writes as follows: A curious popular delusion it is which teaches that a particle of dust or cinder blown into an eye by the wind may best be removed by rubbing the eye. Many have found by experience that rubbing the unaffected eye is quickly followed by relief of pain in, and rapid recovery of, the other eye, while rubbing the organ into which the sharp particle has blown usually results in increased pain and discomfort. This apparent proof by experience is negated by experience of those who rub neither eye, but simply wait, with the injured eye quietly closed, until the tears wash out the offending mote.

This is the philosophy of the cure. If the eye is rubbed, the pressure of the eye is imbedded by the pressure in the conjunctiva or cornea, and cannot be removed by the flow of tears due to the irritation of its contact. If the patient, however, will content himself with simply closing his eyelids with the eyes rolled downward, the flow of tears will in a few minutes carry the little particles of dust outside of the conjunctiva. Hence it is that while he occupies his meddlesome fingers with rubbing the well eye, he allows the painful eye to cure itself by physiological therapeutics.

Colorado Mines.

New York financial journals and newspapers have of late contained mention of the growing interest in mining stock, indicating that that class of investment is coming into favor. Abundant reason for this is found in the rapid and constant increase of the bullion product in Colorado, which has exceeded \$30,000,000 for the year just closed. These figures account for the exceptional prosperity of Colorado in recent years, which has transformed Denver, in a dozen years, from a frontier town of 10,000 people into one of the most beautiful cities in the United States, with a population of 125,000. This unexampled growth is wholly due to the profits of mining.

A Haunted House.

This body of ours has been likened to a tomb. It often has a haunted apartment—the stomach. Scared by the eldritch spite, dyspepsia, digestion fails and refuses to retain. What can break the spell, what can raise the ban laid upon the unhappy organs? We answer unhesitatingly, Hostetter's Stomach Bitters, and we are warranted in the response by the recorded testimony of myriads, covering a period of over a third of a century. A course of the Bitters, begun in any stage of the affliction, and persistently followed will terminate in cure positive, so partial. The Bitters restores tone to the epigastric nerve, renews and purifies the juices exuding from the cellular tissues that act upon the food digestively, expels bile from the stomach and the blood, and promotes a regular habit of body. Malaria, kidney complaint, nervousness, rheumatism and neuralgia give way to this medicine.

BORN.

HENDRA—In Virginia City, February 4, 1920, the wife of Charles F. Hendra, a daughter.

BONNIFIELD—In Winnemucca, Nev., January 28, 1920, to the wife of J. J. Bonnifield, a daughter.

\$1,000 REWARD FOR ANY CASE of private disease, Syphilis, Gonorrhea, Nervous debility, Rheumatism, Syphilis, Scrofula, etc., which DR. RICHAU'S GOLDEN REMEDIES FAIL TO CURE.

No mercury, no restriction of diet. Cures all skin diseases, eczema, psoriasis, etc. Correspondence answered promptly. Address: DR. D. B. RICHAU, 210, 2nd Varick street, New York.

HOTELS.

Reno's Popular Hotel.

THE RIVERSIDE IS OFFERING new attractions to the guests every day.

THE ROOMS are well ventilated and lighted and sunny.

THE BOARD is of the best, both in quality and quantity. The finest meats, as well as fowl in the market.

THE BAR is second to none on the coast.

Give us a call and be convinced.

W. R. CHAMBERLAIN, Manager.

THE PALACE.

RENO'S LEADING HOTEL.

Light sunny Rooms, Restaurant Attached, Fine Billiard Parlor.

AL WHITE, J. J. GRANT, Proprietors.

Every Attention Paid to Guests.

Lots for Sale.

100 OR MORE ELIGIBLE BUILDING Lots for sale at easy prices and easy terms, south of the Truckee river, south-east of Reno. Enquire of THOS. E. HAYDON.

MARCUS FREDRICK, DEALER IN Tobacco, Cigars, Smokers' Materials, Etc. Watch, Clock and Jewelry Repairing A SPECIALTY. THE PUBLIC PATRONAGE IS INVITED. Agency for the "Reno Evening Gazette." NEXT DOOR TO W. O. H. MARTIN'S.

A POPULAR DELUSION.

Relative to Removing Moles from the Eye.

Dr. J. B. Roberts writes as follows: A curious popular delusion it is which teaches that a particle of dust or cinder blown into an eye by the wind may best be removed by rubbing the eye. Many have found by experience that rubbing the unaffected eye is quickly followed by relief of pain in, and rapid recovery of, the other eye, while rubbing the organ into which the sharp particle has blown usually results in increased pain and discomfort. This apparent proof by experience is negated by experience of those who rub neither eye, but simply wait, with the injured eye quietly closed, until the tears wash out the offending mote.

This is the philosophy of the cure. If the eye is rubbed, the pressure of the eye is imbedded by the pressure in the conjunctiva or cornea, and cannot be removed by the flow of tears due to the irritation of its contact. If the patient, however, will content himself with simply closing his eyelids with the eyes rolled downward, the flow of tears will in a few minutes carry the little particles of dust outside of the conjunctiva. Hence it is that while he occupies his meddlesome fingers with rubbing the well eye, he allows the painful eye to cure itself by physiological therapeutics.
